## About me

**Resourceful Full Stack Developer** with over **7** years of comprehensive experience in **web development**, specializing in both **front-end** and **back-end** technologies. Adept at building responsive user interfaces with **HTML**, **CSS**, and **JavaScript** frameworks like **React** and **Angular**, coupled with **server-side** expertise in **Node.js** and **database management** using **SQL** and **NoSQL** databases. Proven track record in developing scalable and efficient **full-stack** applications. Committed to maintaining **cutting-edge technical** skills and up-to-date industry knowledge. Skilled in collaborating with cross-functional teams to achieve project goals and improve development processes. **Enthusiastic** about coding and delivering high-quality solutions that enhance user experience and business objectives.

---

## Experience

### Senior Full Stack Developer at Self-employed

Dec 2023 - Present, Remote

- Develop and maintain responsive, user-friendly, and visually appealing websites using programming languages.
- Collaborate with cross-functional teams to optimize website performance, user experience, and **SEO**.
- Developed and implemented a secure, scalable architecture for web applications using **Node.js**, **Express**, **React**, **Redux** and **MongoDB**.

### Senior Full Stack Developer at Drapefit

Oct 2020 - Dec 2023, San Francisco, Texas

- Crafted responsive and engaging user interfaces using **HTML**, **CSS**, and **JavaScript** frameworks, guaranteeing a smooth and intuitive user journey.
- Worked in agile development environments, actively participating in sprint planning, daily stand-ups, and retrospectives to deliver features on time and adapt to evolving project requirements.
- I kept abreast of the latest industry trends and emerging technologies to incorporate the best practices and tools into development processes.

### Full Stack Web Developer at Palmerbet

Oct 2018 - Sep 2021, Sydney, Australia

- Developed and maintained responsive, user-friendly front-end interfaces using **HTML**, **CSS**, **JavaScript**, and modern frameworks such as **Angular** and **React**. Ensured seamless user experiences by optimizing web application performance and adhering to **UX/UI** best Built and maintained scalable and secure web applications.
- Designed and managed relational and NoSQL databases (e.g., **MySQL**, **MongoDB**) to store, retrieve, and manipulate data efficiently.
- Implemented database schemas, conducted performance optimization, and ensured data security and integrity.

---

## Education

**University of California, Berkeley**

Apr 2014 - Mar 2018

- Earned a 3.8 GPA (MAX 4.0) and completed relevant coursework in web development, database management, and software engineering.
- I award Bachelor's degree in Computer Science.

---

## Skills

### Frontend development

HTML5, CSS3(including preprocessors like Sass or Less), JavaScript(ES6+), Responsive design principles, Frontend frameworks(React, Angular, Vue.js), CSS frameworks, Version control/Git, Web performance optimization

### Backend Development

Server-side programming languages(JavaScript/Node.js, Python, Ruby, Java, C#, Golang), Web servers(Django, Express.js, Spring Boot), RESTful API design and implementation, Database management systems(SQL, NoSQL), Authentication and authorization(JWT, OAuth), Caching strategies, Serverless architecture(AWS Lambda, Azure Functions), Microservices architecture, Containerization(Docker), Testing frameworks(Mocha, Jest)

### Mobile Development

Mobile app development frameworks(React Native, Flutter, Xamarin), Programming languages for mobile development(Swift, Kotlin, Java, Dart), Cross-platform development tools(Expo), Deployment to app stores(Google Play Store, Apple App Store), Mobile app security best practices, Mobile testing frameworks

### Blockchain Development

Blockchain fundamentals, Smart Contract, Blockchain platforms, Cryptography, Distributed ledger technology, Wallet integration, Tokenization, Decentralized application development(DApp), Understanding of blockchain security vulnerabilities

### Deployment and Version Control

CI/CD pipelines, DevOps tools, Containerization(Docker, Kubernetes), Cloud platforms(AWS, Azure, Google Cloud Platform), Server configuration and management, Version Control systems(Git, SVN), Collaboration platforms(GitHub, GitLab, Bitbucket)

---

## Languages

**English** - Native

**Chinese** - Professional

**Spanish** - Conversational

---

## Certificates

**Frontend Developer (React) Certificate**

Apr 2024, HackerRank

**Software Engineer Certificate**

Apr 2024, HackerRank

---
